

Jakub Cieřlik

Full-stack software developer

Profile

I develop and build web applications on both the backend and the frontend. I work on products from the first architectural decisions through to deployment. I'm comfortable with systems based on microservices, as well as modulith and monolithic architectures. On my own initiative, I propose and implement solutions that have a real impact on the stability and performance of the product.

Experience

Shelfio • Full-stack software developer

10.2025 - present (11 months)

- Typescript
- React
- TailwindCSS
- Next.js
- Docker
- Linux
- Ruby
- Ruby on Rails
- PostgreSQL
- IoT / MQTT
- AWS S3
- Mikroserwisy

I'm responsible for maintaining and developing areas critical to store operations, along with other key functionality. I also develop web applications that form a shared product layer for autonomous stores and gyms. On my own initiative, I introduced changes that improved performance and UX. I also work on the architecture of individual services.

SiteBell • Front-end developer

08.2025 - 10.2025 (3 months) • Internship

- Typescript
- React
- TailwindCSS
- Next.js
- Docker
- Linux
- GitLab

I was responsible for developing and shipping new UI components. I took part in daily team meetings and proposed and built my own solutions, which had a real impact on the final look of the product.

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process in accordance with the Act of 10 May 2018 on the Protection of Personal Data (Journal of Laws of 2018, item 1000) and in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (GDPR).
